## REJUVENATE YOUR SKIN TO SPARKLE

Western Australia's only dedicated beauty and skincare clinic owned and operated by a team of Plastic Surgeons, Assure Medispa, has launched a new 30-day makeover program titled 'Sparkle' to help clients transform their appearance in as little as one month. Designed as the perfect preparation for a special occasion, Sparkle combines the latest non-surgical and non-invasive cosmetic procedures with skincare products, customised to the specific needs of your skin, to create dramatic improvements in only 30 days. Surgeon and Co-Director of Assure Medispa, Dr Vij Vijayasekaran AM, says the Sparkle program was developed to help clients achieve a new and improved look in a short space of time.

*"It is ideal for people who are looking for a fast and effective makeover, in time for a special event such as a wedding or special celebration."*

Dr Vijayasekaran says that Sparkle, being a medical-grade skin rejuvenation program, also delivered a long-lasting effect.

*"The benefits of the techniques and treatments we are using extend well beyond the 30-day period and in many cases, they have an ongoing and long-term effect,"* he says.

#### THE SPARKLE PACKAGE

- A complimentary consultation with a Medical Aesthetician to discuss your needs and desired results
- Complimentary Beau Visage™ skin analysis – capturing 3D digital photographs to diagnose the age and condition of your skin
- A personalised 'Sparkle Medi-Plan' tailored to match your individual needs
- Medical-grade skincare products
- Complimentary professional make-up application, using Glo Minerals™ Makeup, including tips and tricks from the Assure Medispa team.

Unlike a beautician or day spa, Assure Medispa's treatments – such as chemical peels; wrinkle relaxers and soft tissue fillers; facial peels; IPL; skin tightening; medical skin needling; and microdermabrasion are all medical-grade and most can only be provided under medical supervision.

Taken without make-up, these photos show the results of Elspeth's Sparkle program at Assure Medispa
