

# WHAT'S NEW: sensitive skin range

When his sister developed a skin redness that no product could reduce, Elliot Isaacs put his pharmacology degree to use and created a product that finally calmed her aggravated skin after years of trials with other products had failed.

His success against the odds gave him the impetus to develop a skin-care range for sensitive skins and after several years of development, he launched the Medik8 range.

The range uses ingredients that are less aggressive than other skin products, but without reducing the efficacy.

The Medik8 range is available exclusively at Assure Medispa, Subiaco. One of the Medik8 signature products is the Firewall — a broad-spectrum super antioxidant containing a new patent-pending anti-ageing complex called Cusodase-P.

All Medik8 products are non-irritating, use bio-available and are 100 per cent soap and paraben-free.

## We love...

Mind&Body tested some of the Medik8 range and our favourite was the C-Tetra. Valued at \$78.20 for a 30ml bottle, the vitamin C serum is designed to combat sun damage to the skin and help trigger collagen production. It contains tetrahexyldecyl ascorbate, a lipid-based vitamin C derivative that is said to be four times more potent than the equivalent concentration of regular vitamin C and vitamin E. Each morning after cleansing, apply three to four drops directly on to the skin and blend evenly across the face, neck and décolletage for an intense hydration.

## WIN! Medik8 treatments

To celebrate the launch of Medik8, Mind&Body and Assure Medispa — the exclusive stockist of Medik8 in WA — are giving away two Medik8 Firewall packs, valued at \$147.20 each, plus a professional skin analysis with the specialists at Assure Medispa.

To enter, write your name, age and address on the back of an envelope and post it to: Mind&Body Medik8 competition GPO Box 2908, Perth 6800. Competition closes on Monday.
